

# FALKLAND ISLANDS GOVERNMENT

## NOTICE TO MARINERS

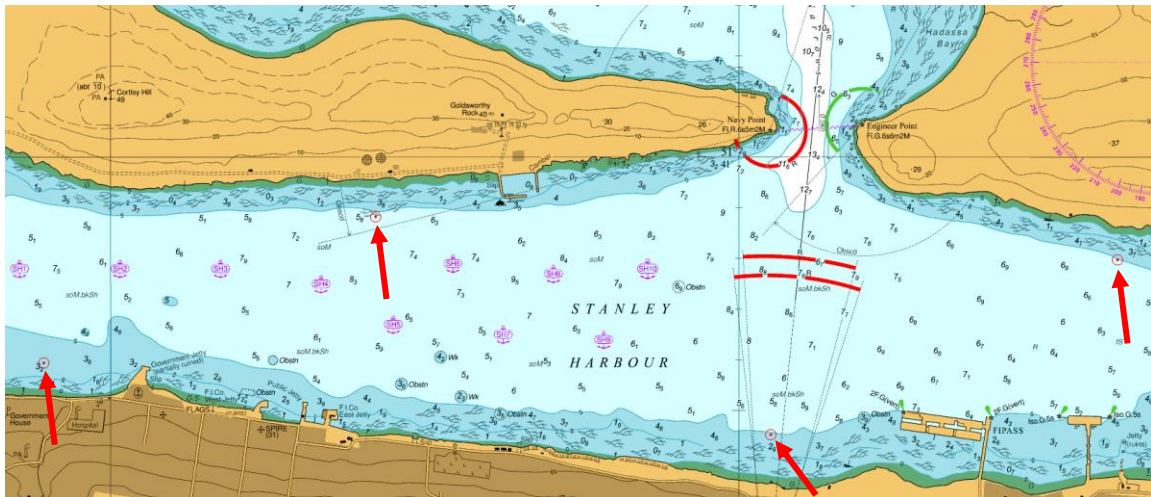

Nº 03/2025

### Stanley Harbour Scientific Instruments

Falklands Conservation will deploy acoustic listening devices for wildlife research within Stanley Harbour in the following positions:

Device	Position
FPOD 1	51°41.406'S 057°52.212'W
FPOD 2	51°41.117'S 057°51.157'W
FPOD 3	51°41.548'S 057°49.899'W
FPOD 4	51°41.202'S 057°48.794'W

Indicated below as a red circle with central dot:

These instruments will be deployed during late May/early June and remain in position for a period of 12-15 months. Instruments will be anchored with chain so that they are suspended approximately 2 metres above the seabed. There will be no marker at the surface.

Mariners are advised to remain at least 30 metres clear to prevent collision and/or entanglement.

This Notice shall remain in force until a notice is promulgated for its cancellation.
